Other Business & Consulting Activities

In 2013, in her role as a Consultant to The Newborn Channel, Dr. Hall led content development for Your NICU Baby (www.yournicubabynow.com), a video educational library for parents of NICU babies. Responsibilities in this project included script development, recruitment of hospitals to participate in filming, establishing collaborative links with parent support organizations, editing of the videos for content accuracy, advising regarding website development and marketing of the product.

Your NICU Baby earned four awards in various health and wellness categories in the 20th Annual Communicator Awards, a competition judged and overseen by the Academy of Interactive and Visual Arts (AIVA). Dr. Hall is continuing in her role as Chief Medical Advisor to this project.

Dr. Hall served as an Expert Moderator of the Pediatrics Discussion Forum for a now defunct website, www.medschool.com, and has also served as a consultant to Legacy Interactive, developing patient scenarios for educational games in their CD-ROM series including ER. She also developed a series of educational software titles for use on devices such as Palm Pilots. This line of products, Games4Doctors, was a top seller among educational software titles on the website www.pdamd.com from 2001-2009.

Dr. Hall has served as an Expert Witness in medical malpractice trials on several occasions, most recently for the Beverly Hills firm of Neil Newson and Associates, and has provided independent expert reviews of cases for Mercy Medical Center in Redding, CA.

Volunteer Activities

As a member of Los Medicos Voladores (The Flying Doctors), participated in medical missions to various underserved locations in Mexico (2002) and Central America

(Nicaragua, 2003). Helped organize and participated in a medical mission to Nicaragua in 2005 with Salvadores de la Salud, a branch of Frater-Nica, a Nicaraguan aid organization based in Northern CA. Served on the Planning Committee for class reunions for her graduating class from Stanford in 2003, 2008, and 2013. In 2009, served as Co-Chair of the 40th Reunion of her high school class, Southwest High School in Kansas City, MO. In 1999, she developed her class website which she still maintains at www.southwest1969.com.

Personal Interests

Dr. Hall has a private pilot's license and is an enthusiastic sailor. She also enjoys hiking, rock climbing, kayaking, photography and traveling. Dr. Hall is fluent in medical Spanish and also speaks some French and German.

Dr. Hall's non-fiction narrative book, "For the Love of Babies: One Doctor's Stories About Life in the Neonatal ICU," was published June 1, 2011 by WorldMaker Media. The book is about the experiences of families whose babies are in the NICU, including both their medical and social issues. More information can be obtained at www.suehallmd.com or on facebook.com under the page "For the Love of Babies."
